

# GONZALO RAMOS

## WEB & SOFTWARE DEVELOPER

Buenos Aires, Argentina | gonzaloramos.dev@gmail.com | [linkedin.com/in/ramosgonzalo/](https://www.linkedin.com/in/ramosgonzalo/)

I'm a passionate web and software developer with a strong drive for technology and continuous learning. I'm currently the co-founder of KIAD, and a Computer Engineering student at the University of Buenos Aires. I'm also pursuing a University Degree in Programming at the National Technological University.

FRONTEND	BACKEND	DATABASES	TOOLS & OTHERS
React   TailwindCSS Next   TypeScript	Node.js   .NET C++	MySQL   PostgreSQL MongoDB	Python   Git & GitHub Postman   Excel   Word

### PROFESSIONAL EXPERIENCE

<b>KIAD - Software Development Team</b> <i>Co-founder &amp; CXO</i> KIAD is a software development startup specialized in creating high-quality websites, backend systems, and digital platforms for innovative businesses worldwide. I'm in charge of the customer experience, as well as the design, planning and visual frontend of projects.	<b>Apr 2025 - Present</b>
--	---------------------------

### PROJECTS

<b>CRM for Freelancers   React - TypeScript - TailwindCSS</b> FreeManage is a CRM (Customer Relationship Management) designed specifically for freelancers who need to manage their clients, tasks, payments, and notes easily and efficiently.	<a href="#">Repository</a>
<b>Weather App   React - JavaScript - CSS</b> Weather App that displays real-time weather conditions based on the city you enter in the search bar, using the OpenWeather API and built with React.	<a href="#">Repository</a>
<b>Medical Clinic System   C# - .NET</b> Development of a multi-tier web system for medical clinic management using ASP.NET Web Forms (C#), SQL Server Repository, and ADO.NET as a final integration project for the Programming III course. It includes patient management, appointment scheduling, and user authentication.	<a href="#">Repository</a>
